SUMMARY

Full Stack Developer (MERN Stack) with 2+ years of hands-on experience in designing, developing, and deploying scalable web applications using React.js, Node.js, Express.js, and MongoDB. Proficient in building RESTful APIs, implementing JWT authentication, role-based access control, and creating responsive, user-friendly interfaces. Passionate about writing clean code and delivering efficient software solutions.

EDUCATION

Bachelor of Computer Applications (BCA)

Manipal University Jaipur

07/2024 – 06/2027

Jaipur, Rajasthan,
India

SKILLS

Frontend

HTML, CSS, Bootstrap, JavaScript, Tailwind CSS, React, Redux, Responsive Web Design

Backend

Node.js, Express.js, REST API, Authentication, JWT, Role-Based Access Control

Database

MongoDB, SQL (Basic)

Development Tools

Git, GitHub, Postman, Visual Studio Code, Canva, Vercel

AI Tools & Productivity

ChatGPT, Claude AI, Gemini AI, Prompt Engineering, AI-assisted Development

CERTIFICATES

Software Development Training

Completed a 2-year Software Development Training program from Tips-G Alwar focused on Full Stack Development, REST APIs, Database Management, and modern software development practices.

PROJECTS

Linkedin - Inspired Job Portal (Full Stack – MERN)

- Developed a job portal with separate Recruiter and Candidate dashboards.
- Enabled recruiters to post, manage, and track job openings efficiently.
- Implemented job search, filtering, and application tracking features for candidates.
- Integrated JWT Authentication, REST APIs, and MongoDB for secure data management.

Task Management System - Tips-G Alwar (Team Project)

- Developed task assignment and progress tracking features for students and teachers.
- Implemented Admin, Student, and Teacher dashboards with role-based access control.
- Integrated JWT Authentication and MongoDB for secure user and task management.
- Enabled task status updates, deadline management, and performance monitoring through a centralized dashboard.

Block Management System (Full Stack – MERN)

- Developed a digital platform for managing citizens, complaints, and government schemes.
- Implemented Admin and Officer dashboards with secure JWT authentication.
- Integrated complaint tracking, scheme management, and real-time data monitoring using MERN Stack.
- Developed notice management and citizen service modules to streamline block-level administrative operations.

IRCTC Railway Booking Platform Clone (Full Stack – MERN)

- Developed a railway ticket booking platform with responsive UI and secure authentication.
- Implemented train search and seat availability checking features.
- Managed passenger details, ticket booking workflow, and booking history.
- Integrated JWT Authentication, REST APIs, and MongoDB for secure data management.

TECHNICAL STRENGTHS

- | | |
|-----------------------------|----------------------------------|
| • RESTful API Development | • JWT Authentication |
| • Role-Based Access Control | • Database Design |
| • Responsive Web Design | • Version Control (Git & GitHub) |
| • Agile Methodology | |

SOFT SKILLS

- | | |
|------------------------|----------------------|
| • Problem Solving | • Team Collaboration |
| • Communication Skills | • Leadership |
| • Time Management | • Adaptability |
